

AI-Ready Advisor

Result Card Pop-Up Blurbs — v2

Read these aloud verbatim. Short bullets, no long sentences. Each card has its own page, ending with a **WOW FACTOR** in yellow.

HOW TO USE

- Read top to bottom. Pause after each line.
- Land the **WOW FACTOR** harder — that's the line they'll remember.
- Close every card with: *"The score is the headline. The pillar is the action."*

CARDS COVERED

- Card 1 — Readiness Score (1–100)
- Card 2 — Annual Cost of Inaction
- Card 3 — Annual Search Waste
- Card 4 — Executive Admin Waste

Card 1

Readiness Score (1–100)

WHAT IT IS

- Your AI readiness as a single percentage.
- A composite of **6 business pillars**.

WHAT IT REPRESENTS

- How prepared you are for AI to **actually pay off**.
- A **snapshot today** — re-take in 90 days to see progress.
- Where you stand vs. **peers in this room**.

WHAT YOUR SCORE MEANS

- **0–35 LOW**. Starting line. Foundation work first.
- **36–70 MID**. Pieces in place. Now connect them.
- **71–100 HIGH**. Ahead of the pack. Optimize and govern.

WOW FACTOR

- **80%** of small businesses score under **50** on their first try.
- Companies with a dedicated AI lead score **2x higher** within 12 months.
- Re-taking quarterly = average **+15 points/year**.

Card 2

Annual Cost of Inaction

WHAT IT IS

- Dollars you lose **every year** by not adopting AI.
- Search Waste + Admin Waste combined.

WHAT IT REPRESENTS

- A **meter, not a debt** — it ticks up every week.
- Minimum value AI integration unlocks today.
- A leak in your bucket. AI is the patch.

WHAT YOUR NUMBER MEANS

- **Under \$50K:** Small leak. Still real.
- **\$50K–\$500K:** Hidden cost. Worth fixing now.
- **\$500K+:** AI is not optional — it's risk management.

WOW FACTOR

- Most companies recover this in **4–9 months**.
- Faster than most marketing campaigns pay off.
- Every **1 week** of delay = **~2% of this number** gone.

Card 3

Annual Search Waste

WHAT IT IS

- Time wasted hunting for files, emails, docs, answers.
- About **42% of manual hours** are pure search and re-entry.

WHAT IT REPRESENTS

- A **tax** on every knowledge worker.
- Time spent **looking**, not **doing**.
- Salaries paid for hours that produce nothing.

WHAT YOUR NUMBER MEANS

- **Low:** Small team, or already organized.
- **Mid:** Typical “stuff scattered everywhere.”
- **High:** Your team is drowning in data.

WOW FACTOR

- McKinsey: knowledge workers spend **1.8 hours/day** searching.
- That's **9 hours/week per person**. Gone.
- AI internal search (RAG) cuts this by **70–90%**.
- Single highest-ROI AI project for most businesses.

Card 4

Executive Admin Waste

WHAT IT IS

- Cost of leadership doing **clerical work**.
- Scheduling, email, status reports, board prep.

WHAT IT REPRESENTS

- Your **highest-paid person** doing your **lowest-leverage work**.
- Counted as **100% recoverable** — no discount.
- Real opportunity cost is far higher than the dollar shown.

WHAT YOUR NUMBER MEANS

- **Even \$20K/yr** = a full hour every workday lost.
- **\$50K+**: Your CEO is a part-time assistant.
- **\$100K+**: AI assistant pays for itself in **weeks**.

WOW FACTOR

- AI reclaims **5–15 hours/week per leader**.
- That's nearly a full extra workday — every week.
- On \$150/hr, 10 hrs/wk = **\$78,000/yr** reclaimed per leader.
- Highest ROI per dollar of any AI investment.

Closing reminder

THE LINE FOR EVERY CARD

“The score is the headline. The pillar is the action.”

THE ASK

Same destination for every tier: the **Full 35-Point Diagnostic**.

- **Low:** build a foundation.
- **Mid:** turn pieces into a plan.
- **High:** find your remaining gaps.

CLOSING SENTENCE

“This room is leaving \$X million on the table every year. The room number is the headline. Your number is the action.”
